HIGOLD® HEXAGONAL BUILDING

Focus on High-end Intelligent Manufacturing. Diversification Glints the World

The second intelligent manufacturing base of Higold Group is Located in Guanghua Industrial Zone, Xingtan Town, Shunde District, with a construction area of 200,000 square metres. Higold Group took the lead in opening a comprehensive digital and intelligent transformation production base of the manufacturing system. The hexagonal building, built to the standard of "dark factory", will create 4 smart factories, one R&D centre and one hardware museum, which will be another success for Higold to build a high-quality smart enterprise.

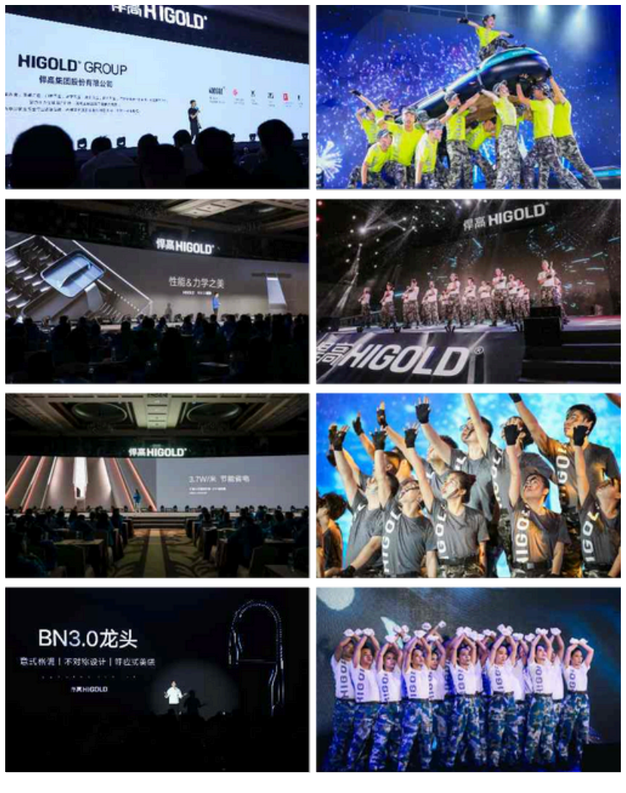

The first phase of the factory building has been fully constructed into a super factory for automatic production. The main products include hinges, guide rails, drawers and hardware core components. It is currently a demonstration benchmark factory with leading production, quality and efficiency. In the future, it will promote the annual output of hinges to more than 1 billion pieces, and strive to build an unmanned workshop with 24-hour fully automatic production, and strive to become a leading world-class home hardware aircraft carrier.

Through upgrading and optimizing product material, product structure, aesthetic design and so on, reshaping space and upgrading storage. The storage space and storage layout of products are greatly improved through the multi-layer storage structure with pumping and the flexible adjustable dividers. It not only meets the daily storage, but also takes into account the differences in living habits between the north and the south. The multi-functional storage area is designed to strengthen the storage space for special-shaped items and meet the storage needs of users in different regions. Space aluminum alloy basket body, make the product more light, strong, scratch resistant and easy to clean, ensure durable. The guide rail of high quality steel has not only passed the European standard GS50000 motion test, but also equipped with dense slide design, making the product push and pull gently, smooth and silent.
